

'I have a dream'

I have a dream
A dream I want to come true
A dream to create equality
A dream to be sorry

When you were only five
We took you from your home
Where you still had so much to learn
And to explore

You had no love from a mother
You had no guidance from your father
You had no grandparents to teach you history
Or friends to put a smile on your face

So we try to right these wrongs
And spread the word that we are SORRY
Its time to make the past right
And stay united as one
