

Forest Pansy

Cercis canadensis

Small Tree

Deciduous

Flowering: Yes

Colour

A small, attractive tree with heart-shaped, burgundy coloured leaves that continually change colour throughout the year.

A rich purple in spring, the foliage transforms to green over summer, followed by a multi-coloured autumn display in tones of red, apricot and gold.

The branches have a distinctive, smooth, dark brown wood which contrasts well with the blossom like pink flowers that are borne before the re-emergence of leaves in spring.
