

We say sorry

*It's time to move on,
But not to forget,
The stolen generation and
The white people's regret.*

*It's time for change,
Together we can help the first Australians
Regain their name.*

*It's time to come forward,
And accept what has been done,
For we are one country,
And we have to move on.*

*We are all brothers and sisters of this nation,
All of us come together,
And we can show our creation.*

*A time for a new beginning,
We will help the Aboriginal culture to start winning,
And the Australian country can start grinning,*

*This is both our land,
If we help our country,
The outcome will be grand.*

*For most of the Aboriginal culture
has been tossed into the vast
But we can regain everyones trust
That was once lost in the past.*
