

OPERATION DURING COVID-19 RESTRICTIONS

All patrons must adhere to the standard Conditions of Entry to the Unley Swimming Centre as well as the new Covid-19 Restrictions that are currently in place.

Failure to comply with the terms and conditions of entry listed, may result in restrictions for further bookings and entry to the Unley Swimming Centre.

Patrons must be confident of their swimming ability in an aquatic environment.

All patrons visiting the facility must 'book' in via our booking system. It is envisioned that this system will remain in place for the remainder of the 2020 - 2021 swimming season to regulate centre user capacity.

TERMS AND CONDITIONS OF ENTRY

While we are open for operation, things are slightly different to past years, with several considered and balanced controls in place for the safety of our customers and staff. These controls will guarantee that the facility operates efficiently and safely in the current climate, ensuring that we are meeting all legislative requirements and setting a socially responsible example for our community.

We acknowledge that some of these new controls may present challenges to our customers. However, after due consideration, we believe these changes are necessary and provide us with the flexibility to either relax conditions around how people use the centre as the pandemic evolves, or which enable us to tighten restrictions if the situation escalates.

PHYSICAL DISTANCING, SAFETY, HEALTH AND HYGIENE

Each patron is responsible for adhering to Physical distancing, health and hygiene guidelines. Always keep a 1.5 metre distance between yourself and others and adhere to assigned entry and exit points.

Change room facilities are available for use, however we encourage all participants to arrive at the Centre "ready to swim" and to minimise the time in the change rooms if required.

Stay home, do not attend the Centre and seek testing if you have the following symptoms:

- Cough
- Shortness of breath or difficulty breathing
- Fever
- Unexplained loss of smell or altered sense of taste
- Chills and body aches or muscle pain
- Sore throat
- Headaches
- Runny nose
- Diarrhoea
